

# ELEVATE SLIDING ACCESS PANEL

## STANDARD FEATURES

The Accelelevation Elevate Sliding Access Panel offers a Smooth Glide Track, an ergonomic handle for peak operation and removal, and a reinforced design that withstands increased containment pressure of AI equipment. The internal panel inserts are designed to slide open either to the left or right. This provides toolless access to vital equipment when needed. These panels can be configured with a single-tiered or two-tiered frame, with a lightweight and rigid design.

- Custom Sized (to 1/8")
